Fortis SITEWORKS

# Georgia's Wet Utilities and Sitework Partner

**CAPABILITIES OVERVIEW**

*Underground Utilities · Horizontal Boring · Grading & Earthwork · Erosion & Sediment Control*

## What We Do

### UNDERGROUND UTILITIES

- Storm drainage
- Sanitary sewer and force main
- Water main
- Pump stations

### HORIZONTAL BORING

- 12″–72″ boring
- Road, railroad, and utility crossings
- Laser-guided bore steering
- Paired with utility crews

### GRADING & EARTHWORK

- Mass grading and site prep
- Demolition and embankments
- Erosion & sediment control
- Pond conversion

## Better Budgets. Better Decisions. Better Execution.

### Better Budgets

We verify site conditions, quantities, and utility conflicts before we build the price. Fewer surprises, fewer change orders.

### Better Decisions

We walk every site with you before a number goes out. Proposals built on real conditions, not assumptions.

### Better Execution

The team that built your estimate builds your project. Confirmed schedules and crews in place before work begins.

### Before We Submit a Price

*Most contractors provide a number. Fortis develops an understanding of the project.*

Our team walks the site, verifies quantities, and pressure-tests the plan before a number goes out. It is the step most contractors skip, and it is why our budgets hold up once work begins. Full process in the companion piece, **Before We Submit a Price**.

Fortis SITEWORKS

## By The Numbers

**1.8M+**
CY EARTH MOVED ACROSS CORRIDOR PROJECTS

**155,000+**
LF UNDERGROUND PIPE INSTALLED

**12″–72″**
HORIZONTAL BORING RANGE

**10+**
PUMP & LIFT STATIONS BUILT

## Representative Projects

| | |
|---|---|
| Stillwater at Lake Oconee | Forestar (national) |
| The Bluffs at Carey Station | Dream Finders Homes |
| SR 96 Storm Drainage Improvements | Vertical Earth / GDOT |
| Effingham County Water Extension | County utility owner |
| Lake Country Village | Lake Country LLC (Publix-anchored commercial development) |
| Del Webb 18 | Pulte Group |
| Richland Connector Sewer | County utility owner |
| I-16 Design Build | Matthews-McLendon JV / GDOT |

Commercial · Residential Development · Public-Sector / Municipal · DOT & Roadway Corridors · Institutional

Serving the Lake Oconee corridor and Middle Georgia, with active work extending to the coast, Athens/Commerce, and Covington.
